5 TRAY STEEL TOOLBOX

Single Frame Handle for more Strength

This Steel Cantilever Tool Box is ideal for storing and transporting a wide range of tools. It's all steel construction means that it is tough enough for the workshop, garage or construction site and it has an Orange & Grey powder coated finish for enhanced durability. It features four cantilever opening drawers which fold out to allow access to the large main compartment. It also has carry handles for easy portability and has padlock eyelets in the lid sections for extra security

HIGH IMPACT PP PLASTIC BIN

Control inventories, shorten assembly times, and minimize parts handling with Protech stacking bins.

- Strong polypropylene storage bins hang or stack to accommodate your needs.
- These plastic bins feature extra wide stacking ledges and finger grips for easy handling.
- Bins have anti-slide stops and reinforcing ribs to help prevent shifting and spreading when full.
- Large label slot provides quick inventory identification.
- Plastic storage bins withstand 250 F temperatures

For general industrial use, these semi-hard rubber mallets give a gentle but firm blow with little rebound, ideal for use under damp conditions or outdoors.

These rubber mallets will not discolour or leave marks on work surfaces. Used as a general-purpose mallet in automotive, industrial, brewery, DIY and camping, garden landscape or work site application when hard materials need to be laid like concrete slabs, patios etc.

Pro-tech Bow Saw are perfect for pruning and cutting logs and large timbers. The steel frame is very strong for demanding applications. The blades are made from cold rolled steel with teeth that have been impulse hardened, precision sharpened and set. The tension lever ensures the blade stays tight while cutting. Simply release the lever when switching blades. A built-in knuckle protector provides comfort and safety. A snap-on plastic guard protects the blade when not in use.

PERFORMANCE ABILITY

- Excellent stability.
- Both zero points of inch & metric are starting from active metal hook for easier work.

SPECIFICATION

- 12.5 mm (1/2") wide for easier reading.
- 0.2mm thick

CHARACTERISTICS :

- Excellent resistance to moisture.
- Long Wearing material.
- Long lasting and easy reading marking.
- Ergonomic easy hand design
- A gear insider for fast rewinding
- A special design to fix the plastic in the position firmly
- Non slip grip on top offers greater comfort

“Our Greatest glory is not in never failing, but in rising every time we fall”

STEEL MEASURING LONG TAPE

CHARACTERISTICS:

- Excellent resistance to moisture.
- Long wearing material.
- Easy reading marking.

PERFORMANCE ABILITY:

- About three times as stable as linen.
- Will withstand up to about 110 kgs.
- (240Lbs.) Pull without breaking.

SPECIFICATION:

- 13MM (1/2" +) wide for easier reading.
- 0.5mm thick(± 0.05mm)

CONSTRUCTION:

- Heat sealed markings for longer life.
- Outside finish of vinyl coating.
- Inside core of glass fiber for strength durability.

| Art No. | Size | Packing | Price |

TUBE CUTTER

6-38MM / " - 1½"

Art No. TC200J

Packing: 48 Pcs/Ctn

Price

Designed for optimized performance on Stainless Steel tube.

Tube cutter with 6 bearings, can cut off the stainless steel more easily, fast and stable

Features

- Six individual bearings replace traditional rollers. The bearings create a smoother cut, and allow for increased speed around the tube.
- A contoured frame allows for easy alignment while adjusting the cutter to make a cut.
- Ergonomic knob allows for easy adjustments

PRO-TECH®
