ABS Safety Helmet Vented Style

Packing : 12 pcs/ctn

Features of ABS SAFETY HELMET :

- Six large cooling vents along the crown improve air circulation and comfort by reducing heat buildup.
- Patented easy-to-adjust ratchet design for added comfort and convenience.
- Special rain gutter along bottom edge helps reduce water dripping on neck.
- Low-profile and lightweight design for comfort over long periods.
- Lateral contours above the ear for easy integration of hearing protection.
- Patented glare guard under brim reduces reflective glare from the sun.
- Super-soft absorbent sweatband for added comfort.

Approvals & Standards :

Meets or exceeds the applicable requirements for Type I helmet (top impact) as outlined in ANSI Z89.1.2003. Class C.

SAFETY HELMET

with Chin Strip (3 hole)

Packing : 30 pcs/carton

The Pro-tech safety helmet is stylish and comfortable. Manufactured from high-density polyethylene, the helmet has a choice of an eight point Terylene or plastic head gear. The helmet is very well balanced when worn, maximizing both comfort and protection for the wearer.

The distinctive contoured helmet shape has been specifically designed to be used with hearing protection. These features ideally suited for heavy engineering and construction applications in exposed environments.

Safety and durability under all conditions. PVC/Nitrile sole is resistance to fats, acids, oils, solvents and many chemicals. Specify designed cleathed sole for high slip resistance, maximum water dispersion and soil release. Easy to clean and sanitise, smooth exterior and fine knitted nylon liner dries quickly for maximum hygiene. Boot design ensures material is distributed for maximum protection where required (ankle, heel, toe and sole) and minimized elsewhere for maximum flexibility.

**Traffic Pole
Flexible Delineator**

Thickness : Upper side : 5.5 mm

Lower side : 8.5 mm

With the top part that is highly elastic, it can rebound to its original position with ease while the base remain intact. The base is strongly fixed to the ground via usage of 3 stronger and longer screws compared to lesser number of screws by competitors. The base is highly flexible and stronger.

- Made of durable material - EDPM
- Greater Impact Resistance
- Highly resistant to Ultra Violet Rays
- Highly Resistant To Scratches & Abrasions
- Does not tear easily
- Highly reflective (3M HIP Reflective Stickers)
- Excellent re-bounceable properties
